Page 3 – Under 2.11 General Instructions to Offerors—is hereby amended to read:

“The deadline for receiving proposals is no later than 14:00pm local Tripoli, Libya time on April 12, 2021. Late offers will be rejected except under extraordinary circumstances at DAI’s discretion.

2. Answers to Questions

Question # 1:	<p>There are contradictions between the requested Powder Paint and Stripping System. The mentioned stripping system in your RFP is for LIQUID Paint. You cannot use it for powder paint for many reasons, one of them is that the nozzles will be damaged frequently due to the size of the paint granules and there always difference in pressure between powder and liquid paint machine.</p> <p>1- Can you advise us on different machine for the Powder Paint?</p> <p>2- or/Can we provide what is suitable for powder paint?</p>
Answer # 1:	<p>Please provide a quote for the cold paint striping machine as shown in the RFP and with liquid paint (compatible with what’s in the Libyan market).</p>
Question # 2:	<p>We have checked on your supplied documents. It shows that your side need cold paint machine and thermoplastic road marking paint. So we want to check if your side should need thermoplastic road marking machine or have thermoplastic road marking machine already, so need cold paint machine?</p>
Answer # 2:	<p>Please provide a quote for the cold paint striping machine as shown in the RFP and with liquid paint (compatible with what’s in the Libyan market).</p>
Question # 3:	<p>Is the paint's form solvent (water or oil type), or powder form? Sure Stripe 3350 or equivalent is a cold spray machine. It is not a hot paint type. The powder paint is not suitable for this type of machine.</p>

	Chinese products are the cheapest but the minimum delivery time from there is 12 weeks. Is that acceptable? Is Libyan origin solvent paints form (oil or water type) acceptable?
Answer # 3:	Please provide quote for water solvent Eco Friendly paint. Paint from Libyan Origin is acceptable. The delivery time is 8 weeks or better as stated in the RFP.
Question # 4:	Kindly give more details about the nature of the paint, is it a powder form? That means is melts to be applied? (thermoplastic paint)? Or it's a liquid paint? If there is a photo for the sample product it will be perfect.
Answer # 4:	It should be water solvent Eco friendly liquid paint.
Question # 5:	For the requested type of sprayers the paint should be in the liquid form.
Answer # 5:	Yes, it should be water solvent Eco friendly liquid paint.
Question # 6:	The painting machine is for liquid paint, the road marking paint is a powder which is normally melted onto the tarmac by a much more sophisticated machine.
Answer # 6:	The required machine is for liquid paint.
Question # 7:	Please check with end-user what they need. If it is just for parking lots, secondary roads etc. it is normally wet paint? Highways heavy traffic, landing strips etc. is more for powder paint?
Answer # 7:	Yes, it should be Eco Friendly water solvent liquid paint.
Question # 8:	To confirm that the paint and the machine you are asking for do not match. You are asking for 20 tons POWDER PAINT but for 20 pcs. of Liquid PAINT MACHINES. Or you want to use the Paint in place and the machine in other place? So please check if you need: <ul style="list-style-type: none"> • Liquid paint (solvent based or waterborne paint) • Powder paint (Thermoplastic)
Answer # 8:	The requisition is for 20 cold paint machines with 10000 Kg of white and 10000 Kg yellow liquid paint, that means each machine should come with 500 Kg of white and 500 Kg yellow paint.
Question # 9:	Do you also need reflective glass beads for the road marking paint?
Answer # 9:	No, we don't require reflective glass breads.
Question # 10:	As you know you need a walk behind paint stripping machine, but you have required Powder Paint in both (White & Yellow) color. Our supplier informed us that it is not possible to use power paint on your requirement machine. Can you check on your side again and confirm to us that you will need paint for the same machine or do you have another machine that will work on powder paint ??
Answer #10:	The RFP should be for 20 cold paint machines with 10,000 kilos of white and 10,000 Liters of yellow liquid paint. Each machine should come with 500 kg of white and 500 kg of yellow paint.

3. Attachment A: Updated Price Schedule

Item No.	Item Name	Quantity	Unit Price In USD	Total Price In USD
1	Walk Behind Paint Striping Machine (See specifications requested in Attachment C.)	20		
2	Liquid Paint, White in Color (See specifications below)	10,000 Kilograms		
3	Liquid Paint, Yellow in Color (See specifications below)	10,000 Kilograms		
Stamp TAX				
GRAND TOTAL IN USD				

4. Specifications for liquid paint

- JOTUN Brand
- Paint, Yellow + white colors
- Superior adhesion to asphalt roads
- High resistance to weathering
- High resistance to abrasion
- High resistance to car fuel and water
- With fixed colors
- Fast drying

Application Surface	Asphalt and Concrete roads
Color	White + Yellow
Packaging Size	25 Kg
Finish	High Sheen
Application Method	Screed
Form of Paint	Liquid
Softening Point	101deg C
Drying Time	8 Min
Shelf Life	12 Months
Density	2.1 g/cm ³
Luminance Factor	85 lux/sq.mcd (White),56 lux/sq.mcd (Yellow)

Except as provided herein, all other terms and conditions of the basic RFP remains unchanged
